**Village of Alexander
Annual Budget Letter (2026–2027)**

Dear Residents,

The Village Board is pleased to present the proposed 2026–2027 Village Budget. As part of our ongoing commitment to transparency and responsible financial management, we want to provide you with a clear understanding of how your tax dollars are allocated—particularly in the areas of salaries and utilities, which represent a significant portion of our annual expenditures.

Salaries

Village employee salaries reflect the cost of maintaining essential services for our community, including administration, public works, and code enforcement. These positions are critical to ensuring the day-to-day operations of the Village run smoothly, from maintaining infrastructure to enforcing local laws and regulations. **All salaries are reviewed annually and are aligned with budgetary constraints and operational needs.**

Utilities

Utility expenses include costs associated with street lighting, municipal buildings, water systems (if applicable), and other public services. **These costs can fluctuate year to year based on usage rates, energy prices, and seasonal factors.** The Board continues to explore cost-saving measures and energy-efficient solutions to help manage these +expenses whenever possible.

Our goal in presenting this information upfront is to ensure residents have a clear and accessible view of where funds are being spent. We encourage all residents to review the full budget document, which is available at the Village Office, and to attend upcoming board meetings where the budget will be discussed in greater detail.

We value your input and remain committed to making decisions that support the long-term stability and success of the Village of Alexander.

If you have any questions or would like further clarification, please do not hesitate to contact the Village Office.

Sincerely,
Village Board
Village of Alexander
